

**REMARKS**

Applicants have amended claims 1, 2 and 10 to overcome the Examiner's objection to the claims.

Applicants thank the Examiner for allowing claims 3-9, 11 and 12 and indicating allowable subject matter.

The Examiner requested that FIGS. 10A, 10B, 11 and 12 be labeled as "Prior Art." Applicants have amended the drawings accordingly.

The claims and the specification have been objected to because the expression "field effect transistor" was misspelled as "filed effect transistor." Applicants have corrected all the misspellings in the claims and the specification as set forth above.

In light of the above, a Notice of Allowance is solicited.

In the event that the transmittal letter is separated from this document and the Patent and Trademark Office determines that an extension and/or other relief is required, applicants petition for any required relief including extensions of time and authorize the Commissioner to charge the cost of such petitions and/or other fees due in connection with the filing of this document to
